

**Agamim Classical Academy** provides a rigorous, joyful, classical, liberal arts education designed to stimulate the mind and shape the heart. Our scholars read and discuss the Great Books and study great thinkers who inspired our nation’s Founders. They learn to reason and write with clarity by emulating the masters. They find truth and beauty within the sciences and arts. An Agamim education goes beyond an excellent preparation for college; it creates leaders who are ready, as the poem says, to “love the beautiful, seek out the true, live for what’s good, and the best—do.”

We are proud to offer a classical, Core Knowledge, tuition-free education benefitting children from all backgrounds and from over 23 cities. We not only believe in the power of *E Pluribus Unum* (Latin: “from the many, one”), we live it. We wear uniforms for unity and formality. We skill-group in Saxon Math, grammar, and Direct Instruction reading and spelling, enabling all children to advance quickly at a high level. Students take three daily physical activity breaks to provide necessary exercise and play. As a public school, we take seriously our role in advancing our nation one wise and virtuous citizen at a time.
